

enriching teaching **unlocking learning**

**ACTIVstudio2
Professional Edition**

ACTIVstudio2 Professional Edition, interactive teaching and learning software

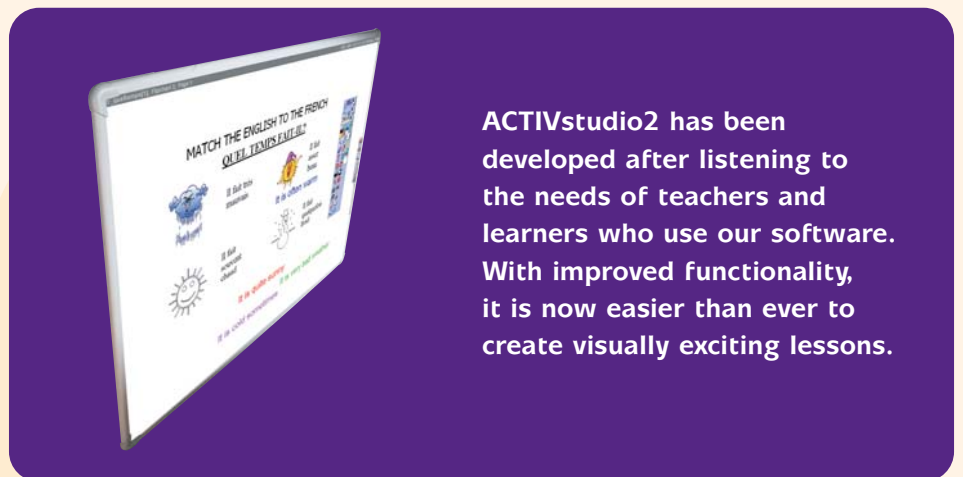

Imagine a lesson where every student is focused and motivated. ACTIVstudio2 helps to achieve just this by creating a collaborative classroom environment where teachers have the opportunity to produce and deliver truly interactive teaching material for their students.

ACTIVstudio2 enables you to prepare and present lessons using the electronic flipchart facility. You can add illustrations, make notes during the class and then at the end of the lesson save, print, or export the information as PDF, PowerPoint, web page or image files.

Powerful tools such as spotlight, reveal, magnifier and camera and new power tools such as ruler, protractor, dice and calculator provide you with everything you need to create dynamic and engaging lessons.

ACTIVstudio2's drag and drop capability makes it easy to add resources to your flipchart pages and customise your personal toolbox so you can work comfortably at your own level of expertise. All your flipcharts, resources and customised profiles can be saved to the network for use by you or your colleagues.

A searchable library of over 5000 resources which support the UK National Curriculum across all key stages, helps you to easily create inspiring lessons. ACTIVstudio2 is also supplied with KarZouche video story composer and Spark Space ideas mapping program to give you even more opportunities to enrich the way you present information to your students.

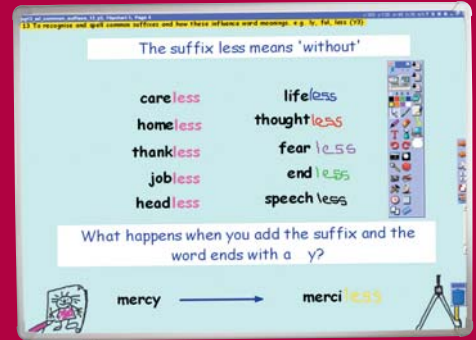

ACTIVstudio2 has been developed after listening to the needs of teachers and learners who use our software. With improved functionality, it is now easier than ever to create visually exciting lessons.

About Promethean

Promethean is dedicated to making a difference to our children's education. With over 450 000 schoolchildren in over 45 countries being taught using Promethean Collaborative Classroom solutions, we constantly strive to be at the forefront of research and development. Promethean employees pride themselves on listening to the needs of teachers and learners in order to provide the highest quality

educational solutions available.

Key to our success is that we understand that your requirements go far beyond the products themselves. We aim to build partnerships with our customers, offering free demonstrations of new products, a complete range of training packages, effective practice workshops, and a support team hot-line.

ACTIVstudio2 Professional Edition

Features

Toolbox

Fully customisable user profiles

Can appear on the screen with horizontal or vertical orientation

Improved presentation tools

Camera tool now with area, freehand, point to point & full screen snapshot

4-way reveal tool for use over flipchart and desktop

Spotlight tool now with a choice of ellipse, rectangle or inverse spotlight, and variable transparency

Magnifier tool with page scaler and panning capability

New power tools

Ruler for drawing and creating scaled lines

Protractor for angle measurement

Rolling dice facility for generation of random numbers

Fraction maker

On screen calculator

Flipchart recorder plays back all actions & annotation sequences

Notes & pointers for teachers to add 'post-its' or pointers during lessons

Digital/analogue clock with count up/count down settings & pause option

Drag & drop capability

Drag & drop virtually anything, anywhere!

New features

Shape recognition

Layer objects: up to 3 layers

Many more image formats now supported, including 'gif' files and high quality rendering

Network capabilities enable 'roaming' access to resources & user profiles

Hyperlink improvements allow the user to launch almost any file, URL or application from the flipchart page

Timestamp tool enables flipchart pages to be stamped with current date & time

Add properties feature allows you to add a range of properties including sound to any item in the flipchart page

Instant language switching from English to several other languages, including French and German

Text deconstruct feature to manipulate individual words in a sentence

Single word colouring

Quick launch bar to which you can drag anything you want to run or display instantly

New graphics engine provides high quality display and real time screen update

Integrated web browser for sourcing online resources

Flipchart

Scalable flipcharts with page turn effect

Open two flipcharts concurrently

Flipchart dustbin for easy removal of unwanted items from the flipchart page

Add searchable metadata tags to flipcharts

Embedded page notes feature

Annotation capability

Glass mode, which places a resizable sheet of 'glass' over applications (even moving video) for annotation

Annotations over the desktop/application are now automatically captured, enabling screens to be saved as flipchart pages

Integrated ACTIVmarker for annotating into MS Office applications

Backgrounds

Snap to grid & mask grid options for easy object alignment

Current page layout can be saved as page background applications

Resource library

Single resource library

Resource Manager to organise resources

Search tool

Testing/feedback (with ACTIVote2)

New pause button on timer allows teacher intervention during ACTIVote feedback

Export/import

Export flipchart pages to HTML, PowerPoint, Word, PDF or image file

Import from PowerPoint

Licence

6 user licences with each Promethean ACTIV board
