

websurfer

**Keep in touch** The 7" websurfer gives you the functionality of a laptop in pint sized, feather-light form so you can take it with you wherever you go: from the bedroom to the boardroom and the car to the bar.

Keep in touch with your friends, family and work with the built in VOIP phone, keep track of your social life and jump on the internet wherever you are.

With a C7-M mobile processor and 4 cell battery the websurfer gives you powerful computing and a long battery life so you can keep surfing to your heart's content.
