

VIPER-AV

120dB Motion Sensing Alarm

VIPER-AV (fitted to SPYDER)

VIPER-AV

VIPER-AV (fitted to AV-CLAMP)

VIPER-AV (fitted in AV-CAGE)

The **VIPER-AV** 120dB alarm system is totally unique and will help to protect projectors, plasma screens and other valuable AV equipment. Combined with the AV-SPYDER, AV-CLAMP and AV-CAGE security systems it provides the ultimate level of security.

The unit, with microchip intelligence, is powered by a 9V Alkaline battery and has an operational life of up to 4 years. When the battery becomes low, the system emits an audible battery low indicator, thus ensuring fail safe operation.
